

**ORGANIZED TO AID  
WAR UNFORTUNATES**  
Special Privileges Are Ex-  
tended the American Relief  
Clearing House.

**FRENCH GOVERNMENT  
GIVES RECOGNITION**  
Inaugurated by Myron T. Herrick,  
Former United States Ambassa-  
dor to Paris.

The way in which the American relief clearing house, organized and maintained in France to enable proper handling, care and distribution of gifts from America for the alleviation of suffering, has outgrown its original functions until it extends its aid literally in scores of directions, should be a source of pride to every citizen of the United States, point out those who are giving their every effort toward increasing its usefulness.

**Is Official Representative.**  
The American Relief Clearing House, organized by Myron T. Herrick, then United States ambassador to France, is the official representative in France of the American Red Cross. It is the only American relief organization in France officially recognized by the French government, by whom it has been accorded free customs entry, free transport throughout France, and many other special privileges. Briefly, with other things, it is receiving and distributing hospital supplies for the wounded; it is aiding in teaching those blinded in battle new trades; it is providing limbs for the maimed; it is furnishing supplies of food and clothing for refugee men, women and children; it meets the repatriated upon the frontiers with supplies and aid; it sends relief to Belgium, to Serbia, to Montenegro; it furnishes plans for the most improved forms of barracks hospitals; it receives reports of all the varying conditions for relief work from sources governmental, semi-official and private all over France, and it makes distributions to every department of France. Supplies are received in Paris from seventeen to twenty-one days after the ship leaves New York and are rapidly sorted and sent on their way to the most needful spots in the quickest time.

**Way Is Made Easy.**  
The way has been made easy and inexpensive to those at home to send supplies for distribution in France. If contributions are sent prepaid as far as the clearing house's warehouse at 150 Bank street, New York city, they will then be forwarded with no further expense or trouble to the contributor. Free ocean transport is accorded by the French line. Money can be sent to and inquiries made of Clyde H. Pratt, secretary, 40 Wall street, New York city.

**Articles Which Are Needed.**  
The following articles, it is stated, are among those of which the organization will never have too great a quantity: Bandages of all sizes, hospital gauze, cotton, absorbent; cotton, non-absorbent; bed sheets, flannel body bands, woolen socks, hospital shirts, day shirts, underclothes, blankets, shoes of all sizes, ponchos and iodine.

**Tools Are Essential.**  
The recovered parts of the invaded districts of France contain absolutely nothing to help man take up again his struggle for existence. Tools of every kind must be provided to aid in re-establishing these now deserted spots to their former stage of civilization. Shovels, axes, scythes, hoes, digging forks, garden forks, hay forks, etc., must come from somewhere.

**CARNEGIE BOYS' AT DINNER.**  
Charles M. Schwab Host to Men Enriched by Steel Industry.  
NEW YORK, January 22.—Charles M. Schwab was host at the annual dinner here last night of "Carnegie boys"—a group of several dozen men who grew up with and became enriched by the American steel industry. Andrew Carnegie, who has been president of the organization since it was formed in 1902, is in Florida, and could not attend.
